

**IASI AFRICAN REGIONAL REPORT
TO EXECUTIVE COMMITTEE MEETING 2000-2001**

**Nerida Clarke
IASI President (IASI Vice Presidency Vacant)**

As members of IASI will be aware the position of African Vice President is currently vacant and because of this I am presenting this brief report.

During 2000/2001 there has not really been a great deal of activity in the African Region in the name of IASI pending the election of a new Vice President at the Lausanne meetings. Indeed this is not to say that individual members have not been undertaking work in relation to sport information and I would like to take this opportunity to ask those members for Africa present at this meeting to outline briefly any initiatives they have undertaken in the period April 2000-April 2001 which has not previously been reported.

For IASI Africa remains a challenge and it is hoped that with the election of a new Vice president that we will begin to see the implementation of a strategy to develop sport information services across this diverse continent.
